

BERKSHIRE H.

Warren Buffet | Berkshire Hathaway | "Hedge Fund"

Focus on US \$270B

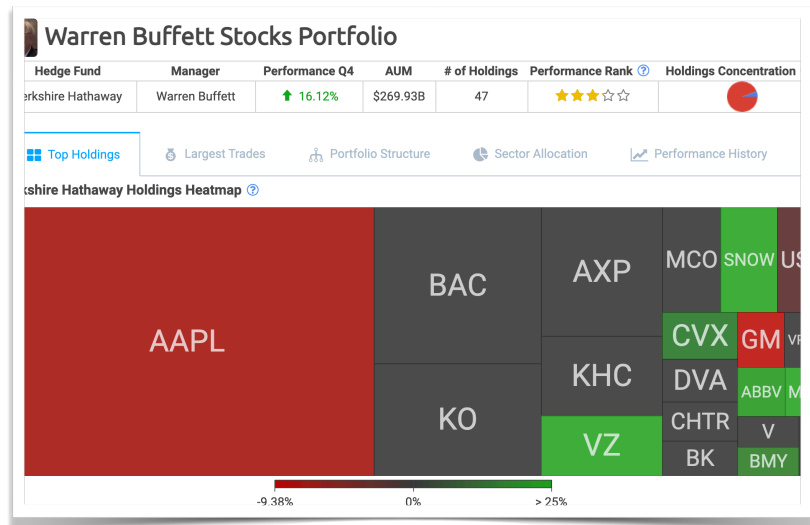

Berkshire Hathaway has always been invested in US-domestic equity positions. There are very insignificant amounts (if non-existing) of fixed income assets.

Changing sector focus

The president of B.H., Warren Buffet, has always been interested in different sectors. Until recently, the fund had a huge allocation in the financial industries, but has been rebalancing the portfolio to include more technology companies, such as Apple, Snowflake, and Verizon +T-Mobile.

Teaching others.

Warren Buffet's name is legendary in the financial industry. Every trade is being closely watched by professionals and impacts the entire market - since the trade volumes are high.
